

From the Editor's Desk

The Editorial Department of the Vista School takes immense pride in launching the first-ever edition of Vista's Magazine - The Phrontistery Chronicles. Considering the virtual scenario, everyone was charged and the atmosphere electrifying. Since the formation of the Editorial Team, till every word edited and finalised, each moment was a cherished opportunity.

Rising like a Phoenix from all the challenges that life has thrown at us suddenly, we took one up and bring to you, the who's who and what's what of our institution in a nutshell. In this decennial year, our focus was to enhance the teaching – learning experience yet stay connected to the roots. Specialised learning and improved technology tools and platforms were some of our main strengths for a smooth transition.

This magazine is our humble attempt to bring to you our journey that started ten years ago. To put it all, in one frame, was a herculean task; nevertheless we bring you the best moments and trivia, garnered and collated only in a month's time. Due to her expertise and experience in decision-making, we could complete the magazine in such a short span of time.

We showcase with pride the remarkable contributions made by our dear students and staff. Be it art or articles, poems or puzzles, our students have enthralled us with all their entries that came flooding in. Constraints of space and the desire to put the spotlight on the school has tied our hands to bring everything. This is the first shot to you and the beauty of it is there's a lot more to come.

There was pleasure in writing about an institution and its professionals that are going to lead the future. They are fantabulous and loaded with aptitude. They are keen to learn and they have a knack for teaching. We learnt a lot while interacting with and introducing every Vistaian into this e-mag and we are keenly waiting to start working on the 2nd edition that is due to be released in Term II.

See you soon!!

Ms. Priyanka Ramchandani

E-magazine, what a good way to celebrate our 5 years of togetherness and beyond, in Vista. We have seen many of the students grow into well-behaved and successful individuals and it, indeed, gives us more confidence and fulfillment knowing that we have contributed to the development of a person. The feeling is inexplicable but it is somewhat comparable to conquering a mountain one never thought he/she would be able to climb. However, it is a much more rewarding achievement. It's not simply another medal or trophy in our cabinet but it is a human life that is made better.

We, the Teachers at Vista, express our gratitude towards the institution for providing us the forum to bring out our best to instill the values among the students as they grow and explore the world around them. A big thank you from all of us.

Reminisce & Retrospect

History and Journey of VISTA

Every successful story begins with a dream and a desire. Vista is the inception of the desire to give back to the motherland, in some measure, what Mrs. and Mr. Challa had garnered from it. This ardent desire from across the ocean gave roots to a vision and thus laid the foundations of Vista in June 2011. From one building and a handful of students to a community thriving in the state of the art infra structure, the journey has been tremendous and still going strong.

Yes, it has had its teething problems, but under the able guidance of Mr. Vellanki Rao and the Directors, coupled with the passion and energy of our Visionary Principal Ms. Mary Shanti Priya, the school is climbing up the ladder of success rapidly and, there is a huge competition to win over. Today, when we look back and see, how it has grown to accommodate another building, a well-equipped playground, smart classes et al; our heart swells with pride to see that it has been worth every drop of sweat and blood utilized in the toil.

Over the years we have seen our students convert their dreams into a reality and win laurels for themselves. Vistaians are not the ones who rest upon their laurels. Our dreams are bigger now. We spread our wings with confidence and foray into the unknown with hope and a higher ambition and a stronger desire. Ten years of dedication and perseverance have brought us this far, and our focus on the goal will take us farther, to conquer new heights. This is our hope and trust in God.

The Past

The Present

From the Director's Desk

"Somewhere, Something Incredible is waiting to be Known."

~ Carl Sagan

It's an amazing quote and it is highly relevant for all of us: children, parents and teachers. I strongly believe that schools are not just meant only to impart and attain information and knowledge, rather they are platforms for collaboration of thoughts and ideas.

As life poses innumerable challenges, the goal of education is to help one to successfully brave through the rough seas of struggle, strife and hurdles. We believe that the strength of character developed at Vista should hold good for the rest of one's life. We wish and strive to make every student blossom intellectually, morally and spiritually.

My congratulations, to the students who have allowed themselves to be shaped especially at the present time when they face the challenge of a rapidly transforming world. I firmly believe that Vista School has done a wonderful job over the period of a decade of its existence in creating an ideal learning ecosystem.

On this Decennial year it gives me immense pleasure that we have published our first school magazine. A school magazine is a forum that gives utterance to the thoughts of students, teachers and highlights the achievements and milestones covered by the school throughout the year.

I wish the Principal, Staff and Students all the best in achieving their set goals in fulfilling the aspirations of parents and ambitions of pupils.

Mr. & Mrs. Suresh Challa
Directors, Vista School

From the Principal's Desk

Schools are the temples of education and children are the epitome of innocence. I feel honoured and privileged to partake in the operations of an educational institution that gently moulds the innocent hearts into strong individuals. In the course of its evolution over a decade, Vista has witnessed an astonishing shift from a conventional school with a stupendous campus to a highly tech-savvy, ingenious and prodigious entity. We, at Vista, perceive ourselves as a group of amateurs, where everyone learns; including our teachers, parents, staff and management.

The learners have garnered opportunities to learn and discover, especially when the present-day world is so disparate from the one in which we grew up and were educated in. At Vista, our approach to learning is student-centered, encouraging Active Learning and inculcating a scientific temper and a spirit of free enquiry. Students are the primary focus and we endeavour to ensure that every child is entailed in the learning process. We do our utmost to consistently ameliorate, be it our teaching methodology, strategies, teaching aids, assessment tools or even subsume technology so that it turns learning into an amalgamation of classroom discourse, research and scientific discovery. A school also tries to groom the children to encounter the challenges of tomorrow, and edify them to be socially pertinent. We perpetually strive to cultivate this gospel and inculcate these ideologies into everything we practise, with the aim that we will be able to ensure that the children grow to their full potential to meet the ever-changing requisites of the society.

Aristotle once said that, "Educating the mind without educating the heart is no education at all." As we impart education to correspond to the advancement in technology and globalization, we do our best to march our children ahead with ethos. We constantly try to instil these qualities in our children. We pride ourselves to help them grow and develop into sensitive and responsible citizens of the next generation to serve the society at large.

I believe in upholding high standards with an absolute commitment and sincerity to strive to understand and improve the educational process, using student-centered strategies. I look forward to working with parents as we are determined to create a school where parents are welcome at any time and be involved in the progress of their child, students are engaged in meaningful learning and the staff members are valued and appreciated for their efforts they take to shape the

"Education is a Shared Commitment between Dedicated Teachers, Motivated Students and Enthusiastic Parents with High Expectations"

future of the students.

Our staff leaves no stone unturned to foster a positive learning environment for all our students. They give their best to promote trusting relationships, where students feel respected, treasured and loved. We assist our students to establish a sense of personal responsibility, self-control, appropriate decision-making skills, self-confidence, and character-building with high integrity.

Parents have the most strengthening power in moulding the future of their children. Their consistent support given to us empowers us to work more religiously. I pay my gratitude to them for their faith and confidence in us.

A committed and supportive management, dedicated teachers, caring and co-operative parents blend harmoniously to create Vista as a student-centered school.

There is a huge scope for all of us at Vista to look forward to. The variety and originality of the articles in the magazine represent the talents of Team Vista. I congratulate the entire team for their hard work and devotion for making this magazine on the Decennial Year of the school. The reflection of the students' as well as teachers' creativity is the soul of the magazine. I am sure that the optimism, perseverance, sustained efforts and imaginative ideas exhibited by our students along with the Editorial Team will surely stir the minds of the readers and take them to the fantastic world of unalloyed joy, contentment and pleasure. "Success comes to those who work hard and stays with those who don't take rest on the laurels of the past"

I am confident enough that the Vistaians will make themselves stronger day by day with every academic year, adding a new leaf to the grandeur of the school.

Ms. Mary Shanti Priya
Principal
Vista School

The Sails and The Anchors

From the Vice Principal's Desk

I feel privileged to work in an organisation like Vista School that provides opportunities for 360 degree growth and development. We focus on making children ready for the future. Our classes, clubs and all other activities are student-centered. We educate children beyond marks and grades, to help them evolve into talented and noble human beings who can contribute towards the development of the society. I believe in quality over quantity.

Sirisha Chitturi
Vice Principal

"Only in the darkest times does the light shine to the brightest."

The light at the end of the tunnel is visible now, indicating that better times are ahead. The darkness of this period will dissipate and hope will take us into a new dawn. Bearing this torch we have marched through the darkest hour lighting up our path and creating a thousand Golden Sparklers.

A calamity affecting the globe at such a scale is unprecedented. Life came to a standstill literally, and globally. After the initial shock, people started to regroup, they started to fight, mentally, physically, and psychologically. Kids started to resume their schooling, albeit online. New normalcy started seeping in. The onus lay on the management and teachers to make the best possible use of the available resources to nurture the young minds. The creative heads endeavoured to establish a platform to appreciate the versatile talents of a holistically developing learner.

I take this opportunity to congratulate all for relentlessly striving to get the best outcomes from every surfacing opportunity. This e-magazine is our next podium to highlight the laurels of the torch bearers and the Trail Blazers alike. It goes on to serve as motivation for all passionate dreamers and I wish each one of them success beyond measure.

Always remember "Life finds a way, we just have to trust in God's plan and believe in a brighter future."

Ms. Beaulah Suchithra
Secondary Coordinator and HOD, English

We at Vista believe that every student is different and it is possible to teach them differently."

Excellence in academics, being our major aim; the school is also dedicated to prepare the students for life-skills, train them to face the challenges of tomorrow and encourage them to be socially pertinent.

The school is trying hard to make the best possible efforts to instill strong values along with academics and extracurricular activities in children.

I am elated on being given the opportunity to write the message and I am indeed proud of my school for providing us with a conducive work environment, infrastructure, modern technology and freedom to experiment (especially with the onset of online classes due to the pandemic situation). I have no words to express my gratitude towards the school for its untiring efforts in making Vista, an institution of great repute. The school continues to introduce innovative ways of bringing out the best in the students for their all-round development.

As mentors, we shall ensure that our students would become modest, respectful and disciplined as they soar heights in their career and bring laurels to their families and school.

Ms. Lalitha M
Coordinator (Grade 1 and 2)

Angela Bennett has famously said-"Middle school is an adventure, not a grade level". I'm certain that all my kiddos from grades 5 and 6 will agree. They are no more fledglings- dependent on their teachers and parents for guidance always, but sprouting wings as they discover new horizons and find their own place under the sun.

Middle school has always been fun at Vista School- since new avenues open up to the students in those grades in terms of greater participation in school events, more complex academic structure, to say nothing of the varied sports activities.

Needless to say, the lockdown was a rude shock to all. I am however filled with pride when I see how quickly and effortlessly these children adapted to the change. Each one an overnight tech-wizard, these kids humble us with their buoyancy and acceptance of a difficult situation.

Well done indeed, my Marvelous Middle Schoolers!

Ms. Sonal Goswami
Mid-School Coordinator

Vista School has set a benchmark in the school industry for successfully carrying out online education during these tough times of the pandemic. We have adjusted the sails to face the sweeping winds of change. The school also crossed one more milestone completing its amazing 10 years journey.

Vista School strongly ensures that students should get quality education every single day to build a strong and positive character.

We teach our students to foster creativity and innovative thinking and not to be afraid of failures. However, at the same time, we enable them to strive hard to achieve success by overcoming the pressures of life.

I hope and pray that the students of our school achieve greater heights of success.

Ms. Koppoju Subhashini
Primary Coordinator

"The journey of a thousand miles also begins with just a single step."

We took a single step to carry out the online education at the right time. This decision helped us in coming so far with quality education.

It's been a pleasure to share this roller-coaster ride since last year with all of you. Altogether different situations and challenging times have called for innovative practices. Not to be left behind in adapting to this NEW NORMAL; we, at Vista have also transitioned smoothly. Kudos to the entire team and the brave students who stayed restricted to their homes and adapted to online learning with much resilience.

Being the coordinator for the youngest teens is indeed enthralling. To see them carry on with life undeterred, learn and grow unflinchingly is an enriching experience. This e-magazine is yet another attempt by VISTA to provide a platform to these young learners. We constantly endeavour to bring to you- The Best.

Wishing you all success and the best that life can offer.

Ms. Roopa Devi Cheemala
High School Coordinator

Heads the most important Pre-Primary Wing, the heart of the school. Believes that if we want to make the education system as strong as the banyan tree; the roots (Pre Primary Education) need to be deeper. Event organisation is her forte. At par excellence in Pre Primary Education. Follows activity-oriented training for all the lessons. Blessed with great oratorical skills. Wins focus by children with influential body language. Strict and organised.

Mary Jumana French
Pre-Primary Coordinator

A school has a huge role to play ranging from pursuing academic excellence to motivating and empowering the students to be lifelong learners, critical thinkers, and productive members of an ever-changing global society.

At Vista, being the coordinator for the first batch for grade XI & XII, I feel fortunate to interact with all the young students. They have empowered themselves with a lot of innovation and zeal. They strive hard to reach the success gates of the career choices that they made for their bright future.

Creativity and imagination make children grow up to be productive adults who then arrive as citizens of the world ready to make their own great contribution to mankind.

I am very happy to see our first blooms – Grade XI students, adapting and moulding themselves to the sudden change from grade X to grade XI, jump onto the train of experience and take a trip with confidence by not only excelling in their academics but also by participating in various innovative competitions.

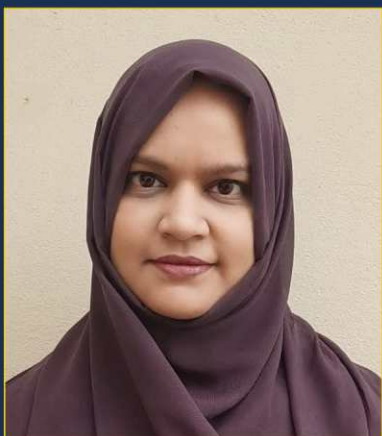

Wishing them all the success!!

Ms. G. Shilpa Bala,
Senior Secondary Coordinator

Hi, I'm Madhavi V Kanchi, the CCA, HSCP & USO Coordinator. I Joined Vista in Nov 2019 and added a new leaf to the tree of my career as the Art & Craft teacher. Everyday I'm amazed at the interest & zeal of the students to learn Art during the Art sessions & their enthusiasm in doing crafts during the CCA Art & Craft & Work Education sessions. Seeing the happiness on their faces, as they enjoy the sessions, poses a great challenge to me to keep this fun & learning flowing. I'm so glad that during these gloomy times of Covid, they quickly adapted to the online mode of teaching, though it posed a challenge to me. I was worried how I could get across art to them. But I've seen that Art & Craft is one of the means of spending meaningful time, expressing their emotions and a means of holding them back to shifting from one screen to another. I and all the teachers involved in the different CCA activities would like to acknowledge and thank the encouragement and efforts of our ever-cooperative parents without whom the carrying out of these activities successfully would surely have not been possible. I wish to see our dearest Vistains become all rounders and continue to make us proud by winning many laurels for the school in the various competitions. I'm thankful to God and the Vista family that I'm still connected with my budding artists. May God bless you, be with you and your family always!! Be Creative & Enjoy every moment!!

Ms. Madhavi Kanchi
HSCP & CCA Coordinator

SST Teacher, Coordinator for Grade 1 and 2. Makes students go beyond the textbooks. Trains them to teach themselves. Strategises to handle naughty students by knowing about their background. Makes the students focus on the world around them since it's SST. An amazing teacher encouraging knowledge among the students over marks.

Sara Faruqui
Grade:1&2 Incharge

Looking back at school memories, there are so many things that can bring a smile on our face – our favourite teacher, that one day when the Math teacher gave an unexpected off period, sharing lunch boxes and most of all – the school events. The planning, the coordination, the sudden feeling of importance – the list goes on. School events at Vista have always been an opportunity to let the students explore their creative and leadership skills and have as much fun as possible. There initially was some trepidation when the school transitioned onto the virtual platform – but we found out soon enough that there was no cause for worry. Our students are masters at adapting and they adapted quickly to shine over the virtual platform, and how! The rest, as they say, is history! The Vistaians have taken part in numerous intra and inter-school events over the virtual platform and have truly sparked in all of them. With each new event, they scaled new heights and have shown that nothing can stop a determined mind – global pandemic included. Good luck and Keep it up!

Ms. Poulami Mukherjee
Event Coordinator

From the Administration

The Administration Department takes care of the hygiene, cleanliness, beautification and greenery in and around the campus including the infrastructure. There are pleasing and adorable vegetable and flower gardens at the Campus of Vista School. The gardens are lovely with lush green grass and magnificent plants all around. There is so much serene beauty all around. However, our campus is missing the kids and we are eagerly waiting for your comeback.

We also assist you with all the admission formalities and help you be a part of Vista family. We have catered to various students in the last 2 years by God's grace even during the Online Classes.

We take care of resource allocation in academics, sports, admission, library, laboratories or anything else; we are here to help. We take care of the allocation of resources ranging from stationery, scientific instruments, study material, furniture, et al.

We search for the best and qualified teachers, interview them and help them to get adjusted with the other staff members so that they can provide the best quality teaching.

Our team entails everyone whom you meet or not, starting from the Operations Department, the Front Desk Executive, the Human Resource Executive, The Accountant, The Counsellors, The Cashier, The Accountant, The Admission Department and the Blue Collar Staff. We work in close coordination with each other to provide the backend support that is equivalent to the backbone.

We have been fortunate to work with Team Vista under the leadership of Honourable Principal Ma'am. We are full of enthusiasm. There are activities throughout the year in one or the other wings and students are already excited when they reach the Administration Department.

We then take you on a tour to the school virtually or physically and inform all the details about the school. Feel free to ask as many questions as you want during the admission procedure. We are here to cater to your concerns.

Thank and Regards,
Administration Department

..... **Meet the**
Squad

Meet The Squad

- **Shaik Shabna**

PPRT

A person with a contagious smile, Ms. Shabna moulds the young minds of the pre-primary kids with her unique blend of techniques ranging from interactive activities to calm interactions. Well versed in the various strategies of early years education, Ms Shabna is quite adept at bringing out the best from her enthusiastic young learners. She believes that good morals and values are more important than textual knowledge and thus, she always imparts sound moral guidance to her young learners. Once under her wing, the students bloom with their unique talents yet stay grounded and compassionate towards all.

- **Lakshmi Sarada Damarla**

PPRT

Ms. Lakshmi believes an impassioned approach is not an option for an early-years educator. Therefore the little Vistains under her wing cultivate the values of camaraderie, companionship and humility - traits that stay with them forever. She has a bonafide, albeit metaphorical, magical wand that instantly gets the youngest Vistains interested in her class. Whether humming nursery rhymes or counting numbers - they give their hundred percent to it, with Ms. Lakshmi as their favourite cheerleader.

- **Neeraja Yellapragada**

PPRT

Ms. Neeraja is the well-versed, well-read, champion of the young superstars of Vista. Her passionate attitude towards grooming her students to become strong and confident results in them graduating into the primary wing brimming with confidence and excitement. Her class is a safe sanctuary for young minds who can say, feel and do things without judgement and learn the values of modesty and humility while never shying away from the spotlight. Always ready to learn new things, Ms. Neeraja ensures she encourages her learners to do the same too. A year under her guidance usually leaves a child with a lifetime of memories that will always bring a smile to their face.

- **Talakoti Anitha**

PRT

The brand-ambassador of 'learning is fun', Ms. Anitha T is a strong believer of the fact that what children learn during play, stays with them forever. Thus she embraces the outdoors and the myriad learning opportunities it provides by encouraging her learners to count while skipping or do additions while passing things. Her play-way approach towards learning usually means that her classroom is packed with eager learners all ready to carpe diem. A compassionate person, she believes children have hearts of gold and therefore she does her best to nurture their positive values and make them well-rounded young people.

- **Gudipudi Nancy Soujanya Pradeepa**

PRT

Ms. Pradeepa believes that a teacher is a lifelong learner. She therefore strives to constantly groom herself to learn new methods and strategies to make her lessons interactive and student-centric. Although very soft-spoken, she never backs away from challenges and always ensures to make her learners understand that their education is first and foremost, their responsibility. Her classes are replete with little anecdotes here and there that help her connect with her learners better and get them more invested in their lessons.

- **Chaitanya T.S.P.K.**

PRT

A Teachthon 2021 finalist, Ms. Chaitanya is remarkably funny and friendly. A passionate traveler and classical dancer she also specialises in decoration. She imparts her positive thinking to children to make them implement a solution oriented approach. She channels her efforts to sensitize children to the poor, the needy and stray animals. Takes active learning sessions to explain the difficult concepts and transforms mundance classes into a creative conclave.

- **Pillala Navyarani**

PRT

A firm believer of a student-centric approach towards education, Ms. Navya ensures that in her classes student involvement is maximum. A bonafide improviser, she uses refreshing activities like singing and rhyming while teaching. For her, a teacher is the bridge between a student and their education and thus she exercises efforts in staying connected with the students all the time. Apart from her subject, she imparts Life Skill lessons too ensuring to instil moral values into the young learners.

- **Jyoshna Devi. D**

PRT

Ms. Jyoshna is of the opinion that it is an educator's responsibility to make her learners independent. She ensures to keep her sessions interactive and to engage each and everyone in her class. Deeply motivated to make a difference to her student's life, she always keeps a keen eye on them, tracking their academic progress and behavioural patterns - scaffolding and guiding them wherever necessary. She is of the opinion that friendship - nurtured and cultivated - can move people to realize their true potential and he does just that by encouraging peer learning amongst her students.

- **Anju Rachabattula**

PRT

Promotes out-of-the-box thinking in lazy students also. Thinks from the perspective of the students to determine her teaching strategies. Encourages positive thinking in students to handle various pressures in life. Avoids monotony by bringing in creative skills while teaching. Trains students to follow the simpler way than harder to save time and effort. Make the students implement the concepts in real life situations.

- **Achsah Bobbili**

TGT

Starting as a teacher and growing up to be a team leader, Ms. Achsah believes in child centric learning. Connecting personally with the students for their all round development is her mantra. Being into the educational sector for quite a long time, she came out with flying colours.

- **Priyanka Ramchandani**

TGT

Started her career in the most demanding Coaching Industry and learnt the tricks to handle all age groups and ilks of learners. Uses voice modulation and hand gestures effectively. Promotes peer-to-peer learning. Incorporates Audio-Visual Techniques for memorising. Imparts energy to students. Handles Creative Writing and Literary Clubs. Presented International Research Paper on "Financial Crisis: Sub-prime Crisis and its Implications-2008" at an International Conference organised by IIFTR, Medicago in 2010.

Meet The Squad

- **Anuja Beotra**

TGT

An effervescent educator, Ms. Anuja breathes 'life' into her classes with her animated style of teaching and unbridled passion towards her subject. Vastly talented and humbly grounded, she is a perfect role model for her students. Leading by example, she ensures that her students are proactive, responsible and optimistic - come what may. She shares a friendly rapport with her students and therefore they find her as their chosen confidante for matters both academic and moral.

- **Sujatha Pollisetty**

PRT

A mathematics facilitator who refuses to make math boring. Miss Sujatha has the firm conviction that students can connect to the subject matter only if they do not 'fear' the subject. Therefore, she makes it priority numero uno to make 'math' more lovable and relatable. With a range of interesting techniques up her sleeves - from sharing anecdotes to coining mnemonic devices to using audio-visual aids - she is determined to make math = (fun X 2).

- **P. Sreedevi**

PRT

Ms. Sreedevi is someone in whom one can always find a kindred spirit. A mathematics facilitator, she tries to make her subject more relatable by sharing instances where learners can put their knowledge to practice in their day to day lives. A voyager at heart, she takes every opportunity to travel and learn about the culture and practices of various places. A close comrade at times and a hard taskmaster at others, she believes there is no alternative to hard work and perseverance and ensures that her learners are always driven and motivated.

- **Shinu Shibu**

TGT

Ms. Shinu, being a part of Vista since its inception, is the perfect example of commitment and diligence. With total dedication towards her subject, she leaves no stones unturned and motivates every student to reach the zenith. Her poise, generous attitude, humble behaviour and responsible nature makes her lovable among her students.

- **JIMSY SHAJI**

TGT

Ms. Jimsy started her career as a lecturer in an Engineering College and had been outstanding in the other fields. An epitome of patience and calmness makes her stand out. Her motive is to involve every student in a class and make the class driven by student initiative.

- **Maimuna Jabeen**

TGT

Scoring a rank below 200 in Edcet exam, Ms. Maimuna, is an achiever of International exposure in Global Education. With many accolades in her name, she believes that a teacher's optimism can have a positive impact on student's performance. Apart from the researches, her experience helps her to build a strong communication among the students.

- **Nair David Raj**

TGT

Qualified as a Web Designer, Mr. David is a blend of knowledge and dedication. His belief in exploring and learning new things from the students makes him amiable. Being tech savvy, he is interested in learning more and more to benefit himself and others. He also has the achievements as the BEST TEACHER and the BEST DISTRICT TEACHER to be proud of.

- **Indukuri Vijaya Kumar Raju**

PGT & HOD

Mr. IVK Raju is at the helm of the Math Department of Vista. Holding a B. Tech in Computer Science, he has a keen understanding of the demands from a new age learner and has been successfully steering the Vistaians to realize their potential one equation at a time. With his ever-present smile and pleasant demeanor, he has been motivating the students to keep pushing towards their dream.

- **Annapurna Devi Yangala**

PRT

Ms. Annapurna - with an impressive 20-years-long experience in teaching behind her - knows with utmost certainty that in education there is no 'one-size-fits-all' approach. A keen observer, she ensures to switch up her techniques every so often to make learners across various capabilities interested and motivated in class. She tries to include real life examples wherever possible and keeps her sessions interactive. Her exuberance and zeal to live life to the fullest makes her favourite among students. Adept at 'reading' students, having studied child psychology, she truly believes teaching is her calling in life and has therefore turned down more administrative and leadership roles in her glorious career to be where she belongs - with her students.

- **Arshiya Anjum**

PRT

Ms. Arshiya - always poised and composed - knows that 'knowledge' is too vast to be held between the covers of a textbook. She, therefore, looks up to the world to teach her and cultivates the same approach in her students. Meticulous in her work and always level-headed, her composure is what sets her apart. A CTET qualified facilitator she is well-aware of the rigors demanded by her profession and never shies away from hardwork - be it on her part or encouraging her learners to do the same.

- **Purnima Srivastava**

TGT

Being a part of the Vista family almost since its inception, the exuberant Ms. Purnima Srivastava can give the young learners a run for their money when it comes to enthusiasm - both for her subject and for life in general. Her commitment to her profession paired with her self-professed workaholic nature, makes her a force to be reckoned with. Her strive to go the extra mile for her students made her a winner in the finale of Lead By Example. Whether sharing ideas about her subject with her students, catching up over a cup of tea with her colleagues, whipping up gourmet meals from everyday ingredients or dancing to catchy tunes - her vivacity is matchless.

Meet The Squad

- **Divakar Rao Baggam**

TGT

Being declared as the BEST OVERALL DISTRICT COORDINATOR by the SOF, Mr. Divakar, is a self-reliant and eager person. He is an Indian Philosopher at heart who believes in the fusion of modern science and ancient wisdom. With his ever-smiling face, he believes in humanity, spreading smiles and making classes lively.

- **Jyothi Vipparthy**

PGT

Ms. Jyothi seamlessly strings together her passion for her subject with her drive to push her students to strive for excellence. With a Masters degree under her belt, she is quite adept at transcending her knowledge sharing from mere academics to real-life situations making it more relatable and enjoyable for the students.

- **Nafis Jahan Begum**

PGT

A picture of vivacious energy, Ms. Nafis breathes life into her classes making it more interesting and enjoyable. With a masters degree in science and 11 years of teaching experience behind her, she has, in her unique way, made Physics an extremely lovable subject for her students. Whether understanding laws of motion or mulling over a problem on thermodynamics, she makes sure her students do so with profound passion just like she does it herself.

- **Anusha Pedapudi**

PRT

A fresher in teaching, Ms. Anusha has worked as a Programmer in Central Govt. Organisation. With a certification from IBM, she is easy-going, joyful and an optimistic person who believes that patience is the key to be a good teacher. She faces challenges in a good way and stays determined.

- **Komaravolu Haripriya**

PRT

Flaunting an M.Sc in Food Technology, Ms. K. Haripriya is also a Nutritionist with varied achievements. Patience and love towards kids are her traits. She uses innovative strategies to help the students reach their goals. Whether learning new strategies of teaching or pouring her creativity onto paper through her mandala artwork, she gives her heart and soul to anything she puts her mind to.

- **Jyoti Jangid**

PRT

Being an optimistic, dependable and reliable person, Ms. Jyoti takes her job sincerely and at the same time loves the quality time she spends with the students. Her dream is to open a shelter home for abandoned animals. Opening a small school or a coaching centre in future is also one of the wishes that she wants to fulfil. Her never-say-never approach makes her a strong team player and this quality permeates onto her students as well.

- **K.Suja Varghese**

TGT

A recipient of 'DURGA MEMORIAL HISTORY AWARD' in B.Ed from St. Christopher College, Chennai, Ms. Suja is a diligent multi-tasker with a heart of gold. Ever willing to jump in to help someone out, she tries to inculcate the values of empathy and fellowship among her students. For her time is money and she refuses to waste it by any means. Always on time and always proactive with her engagements, she is a true role model for her students.

- **Agnes Kurian**

TGT

From being a social worker to being a social facilitator, Ms Agnes has excelled in almost every field. Apart from multiple research papers to her name, she also has an NGO named as 'Pragyaan' that helps the underprivileged students. She strongly believes in bringing significant changes in the social sector. She wants to work more in the field of education and be in a position of power and leadership where she can cater to the needs of the students.

- **Sonali Malik**

TGT & HOD

With her 7 years of experience as an HOD, Ms. Sonali is good at managing things at the time of crisis and believes in living life to the fullest. Her good communication and management skills have helped her to lead the team from the front (as an HOD). She is patient and empathetic towards individual students and tries almost everything to make her subject more interesting.

- **Meenakshi Jasrotia**

PGT

The soft-spoken gem of the Social department, Ms. Meenakshi has been patiently shaping up the minds of the high school students of Vista to not only become good learners, but good humans as well. With a masters degree in commerce and an MBA in her kitty and a decade long higher secondary school teaching experience along with a CSB score card under her belt, Ms. Meenakshi truly is an invaluable resource at Vista

- **Sreejoni Saha**

PGT

A whiff of fresh energy in the Social studies department, Ms. Sreejoni is fueled with her determination to groom her students to be informed, opinionated and headstrong - just like her. Holding a masters degree in Political Science, she is a true balance of realism and fantasy. Whether holding debates on pressing social issues, discussing about masterpieces in literature, mulling over world economics or patiently waiting for her letter from Hogwarts - she does it all with poise and smile. A multi talented woman, she spends her time either dancing or cuddling up with a good book.

- **Manisha Jhingran**

PGT

Ms. Manisha is what may be called as powerhouse personified. Holding a Masters degree in Commerce and an MBA in Educational Management, she leads by example on how to be the best version of oneself. Her no-nonsense attitude and focus towards life serves as a guide for her students on what to do if one wishes to excel in life. An exemplary educator, Ms. Manisha had been awarded by then HRD minister Ms Smriti Irani for students' outstanding performance in CBSE Grade 12 exams of 2014-15

Meet The Squad

- **Mastipalli Haritha**

PRT

Ms. Haritha believes that when it comes to students, one can never skimp on attention. She makes it a point to involve her students in hands-on activities in the class to keep them engaged and motivated. A quick learner herself, she believes the best way to channelize the potential of the learners is by making them accountable for their own learning. Her contagious enthusiasm and positivity surely leaves a mark with the young learners.

- **Garima Verma**

PRT

The lady with enviable composure and a treasure-trove of talent - this about sums up Ms. Garima. She tries her best to 'sneak' in the learning via engaging interactive games and activities. Not a fan of conventional 'homework' and assessment she focuses her attention to ensure that her learners end up falling in love with her subject. In her opinion - once they love a subject, the proficiency follows. With a CTET qualification and numerous sessions conducted by CBSE as her guide, her classes are always a fun zone with rhymes, songs and poems - all meticulously chosen to tickle the creative juices of the learners.

- **Mamtesh Kumari**

PRT

There is more to Ms. Mamtesh than meets the eye. Not only is she a highly competent teacher, but also a Patanjali certified yoga instructor. In a world where more and more students lean towards English and away from the native Indian languages, she tries to inculcate in them a feeling of closeness with the language. Through mindfully crafted games and interactive sessions she tries to get her learners take the wheel when it comes to learning this language. Adept at various forms of theatre arts she strives to gravitate the learners towards various performing art forms too as a means of expressing themselves.

- **Poonam Dwivedi**

PRT

The quaint artistic soul with unparalleled love for her language, Ms. Poonam considers it her calling to help students master the Hindi language and relish the plethora of literature under its wing. Having attended numerous sessions by CBSE, she has developed a keen insight into the various approaches that can be adapted to ensure that learners are not only understanding the textual contents but also appreciating the beauty of the language. A poet who can, within a moments notice, pen down beautiful verses, she definitely displays a mastery over her subject.

- **Shaik Heena Anwar**

TGT

With her articles published in many journals and a published book 'AAKANT' under her name, Ms. Heena has a doctorate degree in Hindi Language. She has also read her articles in many National and International seminars. Her main motive is to study Hindi Literature and cater to the needs of the students and take it to new heights.

- **Preety Gupta**

TGT & HOD

Ms. Preety is a hard working, caring and a good listener who respects other's ideas and adapts according to the situation. Securing the 1st place in the South Zone in Lead By Example, she believes in teamwork and is always supportive, organized and eager to learn new ways to benefit the organisation and her student

- **Sanjeev Kumar Singh**

TGT

Being an Hindi facilitator, Mr. Sanjeev is continuously aimed at sowing the seeds of Hindi language into every child making it understandable to them. He even has a good command over Hindi and helps the students to converse in the same and easy to adapt style.

- **Ajeet Kumar Chauhan**

TGT

With a total teaching experience of 8 years Mr. Ajeet has successfully managed to increase the student's reading and writing comprehension test scores every year. Being a founder of an NGO 'VASUDHAIV UTTAN FOUNDATION', he believes in serving people. Apart from working as a Resource Person with many publications, he was also honoured with "Rashtrabhasha Bhushan Puraskar" by Mahatma Gandhi Rashtra Hindi Prachar Sanstha, Pune. Being a Gold Medalist in Badminton in B.Ed College, he is passionate about forging relationships with students that build a sense of confidence and enable them to grow as learners.

- **Yashasri Rayapuraju**

PRT

Ms. Yashasri started her career teaching pre-primary wing. Although she teaches Telugu as a second language, she is a bonafide artist and extremely adept at various art and craft forms, specialising in craft work. She believes that children learn best while doing and thus curates various activities for her learners to perform during class to help them grasp a concept better. Not one to shy away from hardwork, she painstakingly recreates the Telugu alphabet with clay in an attempt to teach the learners the various letters in a more interesting manner. Her focus is to cultivate curiosity and appreciation for Telugu amongst her learners.

- **Supraja Pulipati**

PRT

Gail Godwin said, 'Teaching is 1/4th preparation and 3/4th theatre'. Ms. Supraja is a living, breathing example of this. There is never a dull moment in her class. Telugu - even for the students who do not speak the language - becomes a favourite with her vivacious approach towards the subject. Deeply appreciative of the rigors demanded while learning a new language she is both encouraging and patient with her learners, egging them on to approach the language one step, one letter, one word at a time. Her only ask from them - never lose hope and never give up.

- **Swapna Garipelli**

PRT

Patience and humility personified, Ms Swapna is the gentle soul that can move even the most reluctant mind to sway to her way of thinking. She uses her kindness and understanding of the psyche to establish a relationship with her students and in turn encourages them to foster a bond with Telugu. Under her guidance a lot of students have discovered the beauty of this language and has been brought closer to their culture and heritage.

- **Avanigadda Bhavani**

TGT

Being in the Vista family for 7 years, Ms Bhavani is a jovial, optimistic, patient and kind with an infectious laugh. She believes in spreading happiness and smiles wherever she goes. Considering team work to be the driving force in any organisation, she works great as a team member. She even strives to make education fun for her students. A humble and grounded human being, she believes, that for any person, their work and their behaviour speak louder than any words of appreciation they can come up with and thus she always focuses on giving her best to her work without the cacophony of self-advertisement.

Meet The Squad

- **Sripada Madhavi**

TGT & HOD

A lady with a helping nature and a positive attitude well describes Ms. Madhavi S. She tries to inculcate new topics to the students and improve their knowledge. Her continuous effort, dedication towards the assigned work and determination makes her stand out. She believes in working with a peaceful mind for a better outcome.

- **Chanvelli Bal Raj**

PRT

Mr. Bal Raj's dictionary is incomplete - it does not have the word 'impossible' in it. His pleasant demeanor, humble attitude and deep reverence to the art of teaching makes him stand out. Adroit in Sanskrit and proficient in Telugu, he can, in the blink of an eye, explain complex shlokas and their literal and metaphorical significance. Although he spends much time poring over books of ancient literature, he is quite adept at modern teaching techniques like multiple intelligence, 21st century skills and inculcating critical thinking among learners - having learned them by dilligently attending various training sessions by CBSE. He believes as long as one lives, one learns and he encourages his learners to do the same.

- **Guntu Anand Venkata Satish**

PGT

The dynamic techie of the school who strives to guide his students to use their technical knowledge to make the world a better place. Currently on his fifth year teaching students of grades 9-12, he keeps strengthening his knowledge base including current technologies like AI, Machine Learning and Big Data. Presently exploring on multilayered feed forward neural network algorithm and BOOLMOOL by the Indian Govt, he believes that a teacher is a much more precious tool than technology to inspire and shape the mind of young learners.

- **Madhu Mathi**

IT Computers

A source of knowledge and support not just for the students but for the technically challenged teachers as well, Ms. Madhu Mathi has been the pillar of the computer department of Vista for quite some time now. She holds a masters degree in computer applications and is currently pursuing B.Ed. Her soft-spoken nature and unparalleled patience with children and flustered adults alike, make her the preferred go-to person whenever anyone is technologically dumbfounded.

- **Nandigam Radhika**

Special Educator

A true embodiment of looking into the bright side of life. Ms Radhika - her soft-spoken, nurturing attitude in tow - ensures that her classes are both enjoyable and informative. Ms. Radhika enjoys working with students with diverse potential and challenges alike. With patience as her 'jewel', she strives to find the gem in each child she grooms

- **Khandavilli Lakshmi Sravya Sri**

PGT

Mind over matter - this is what Ms. Sravya lives by. With her degree in psychology and keen insight into the workings of the adolescent mind, she strives to raise and groom the Vistaians to be the perfect embodiment of a 21st century global citizen. With a passionate approach towards her subject, Ms Sravya also offers family therapy and counselling to individuals across all age groups.

- **Maha Jabeen**
Music facilitator

The perfect symphony of talent, perseverance, grit and humility. Whether strumming a ukulele or playing a synthesizer, she manages to create magic in her classes - with the youngest as well as the oldest Vistaians. Her vibrant nature resonates with the students and she takes it up as an opportunity to inspire them to always keep learning new things - just like she does. Her effervescence has truly left Vista 'mahartified'

- **Vundekode Lavanya**
Lab Assistant

Extremely meticulous, organised and systematic in maintenance of laboratory equipments, labeling and arranging equipments and specimens in proper order, Ms Lavanya believes in restoring calm in chaos. She diligently maintains teaching aids register used by the Science Teacher with the help of Lab and other relevant details pertaining to the usage of laboratory, she shows, by example, that everyone is accountable for their actions. She instills responsibility amongst the students and encourages them to be mindful of their surroundings - a trait that stays with them for life.

- **Rasna Naragani**
Medical Assistant

Ms. Rasna takes up her responsibility with utmost care and love. She looks into administrative as well as clinical tasks, such as maintaining students health records, giving first aid to students when they get injured while playing any other accidents. Keeps the parents informed immediately and gives medication if required based on their symptoms while having a keen eye on their medical history as reported to the school.

- **Uyyala Madhu**
PET

Being a gold medalist, Mr. Madhu is determined enough to prepare his students for the School or the National Level Competitions. He is dedicated, resourceful and innovative who strives to help students change their marginal grades into good grades. With his knowledge of sports, basic health and nutrition, he has managed to take the students to higher levels.

- **Nethala Chinnababu**
PET

Mr. Chinnababu has played two national tournaments in football. He specialises in football, but is equally proficient in cricket, volleyball, kabbadi and many indoor games as well. During virtual sessions he made the nursery and PP students perform various activities inside the room related to catching, throwing, jumping, etc inside the room in a calculated manner. He also took yoga sessions to keep the students fit during lockdown.

- **Uday Sir**
Dance Master

The Dance Master of Vista, Mr Uday has 8 years of experience. He has command over western, hip hop, folk, salsa, bollywood style and semi-classical dance forms. He has participated in various TV shows like "Dance Veera Dance" as an assistant choreographer in dhee. He simplifies every dance move after observing every individual and makes even the reluctant dancer forget their inhibitions and shake a leg.

Art and Craft

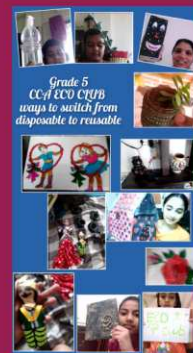

Cookery

Creative Writing

Eco

Literary Club

Theatre Arts

ART & CRAFT CLUB - Art and craft are a great way to ignite creativity and spark some imagination in young minds. The purpose of our club is to encourage imaginative expression, create artwork around campus, allow students to discover new crafts and bring together a group of like-minded people. The club is open for different activities like rangoli, painting, drawing and various forms of craftwork. The club also encourages the young artists to practise various indigenous art forms of our nation – like Warli, Madhubani, Kalamkari, etc. The members of the club also put a great stock on being mindful about resources in their creativity, which is why 'best out of waste' is an oft-visited activity.

COOKERY CLUB - The Club aims to encourage everyone to have an understanding of food hygiene and food safety, have the opportunity to try new cuisines and understand the importance of a healthy and balanced diet. Students are trained to prepare easy and healthy recipes. Students learn about the importance of a healthy and balanced diet, how to plan and prepare balanced meals, read and understand food labels, learn about food hygiene and food safety skills, and above all, discover that baking and cooking is fun! Students are exposed to new vocabulary associated with baking and cooking methods such as creaming, folding, slicing, stir-frying, kneading, etc. They also learn to work together, take turns, and encourage their friends during the preparation and cooking process. An added bonus is the fact that they do become quite the handy little helpers at home, shouldering the responsibility, and taking pride in serving their family quite often with delicious treats cooked with a heaping spoonful of love.

ECO CLUB – The Eco club empowers students to participate and take up meaningful environmental activities and projects. It is a forum through which students reach out to influence, engage their parents and neighborhood and communities to promote sound environmental behavior. The main aim of establishing the Eco Club was to create a clean and green consciousness among students and to teach them how to conserve the natural resources and the natural environment, to create Eco friendly environment and create awareness of biodiversity conservation and local environmental issues. Through various activities like making compost, maintaining their own herb and kitchen gardens, making PPTs about the awareness regarding global warming, taking part in various inter and intra school competitions, the learners have become quite sound in their understanding about the Earth and their responsibility to conserve and preserve it.

CREATIVE WRITING CLUB - Creative Writing Club is to promote writing creatively. Many students enjoy expressing themselves through original writing. Whether it takes the shape of poetry, prose or short stories - students' creativity is encouraged in this club. The Creative Writing Club brings together students of all writing abilities who have an interest in creating fiction, nonfiction, scripts, and/or poetry. It provides a collaborative work space for members to write, share ideas, and provide feedback for each other's work.

LITERARY CLUB- Literary club was formed to develop the speaking and writing skills of the students. To inculcate among students a flair for the language and enhance their literary skills, induce reading habit in students, encourage students to become orators and display their intellectual, independent thinking skills and imbibe a sense of confidence. To provide a platform for debating events. Students participate in debates, poetry writing, storytelling, elocution, declamation and various activities related to English literature

THEATRE ARTS CLUB – The Theatre and Arts Club was formed to build intellectual and aesthetic understanding of the craft and technique of theatre arts, to develop an appreciation of and respect for various roles/aspects inherent within the theatrical process and to explore the diversity of theatre and its intersection with community, culture and society. Participants learn and perform Mime, Nukkad Natak, Emotional Hash & different forms of theatre performances.

THE GAVEL CLUB : The Gavel Club of Vista (lovingly styled as The Ciceronian Squad) is a sub-set and a part of Toastmaster's International and provides the Toastmaster's experience to the young students. Following the protocols similar to the Toastmaster's International and using their manuals as guide, the club instills leadership skills among students with special attention to their oratory skills. The members of the club meet and discuss on matters ranging from personal struggles or triumphs to matters of international importance. With various leadership roles assigned to different members, the club also encourages the members to be responsible and accountable for their tasks. They also learn the art of 'constructive criticism' and enjoy an environment that stimulates their intellectual growth.

How we Thrived in the Virtual Platform

It has been 2 years since the global pandemic hit us and our lives were morphed overnight. As an educational institution, we had no luxury for a shocked pause. With the well being of our students as our top priority and driving force, the school immediately transitioned onto the virtual platform by conducting regular classes over **Zoom**. With deliveries of textbooks being delayed due to lockdown, the textual contents were mainly delivered using **Active App**, by Pearson Publications that greatly helped students with its anytime anywhere access and user-friendly interface. As things settled a bit, we shifted focus to making our students accountable and responsible for their growth by using **Neverskip** to schedule classes and give assignments that helped the teachers track their daily progress and attendance. As the process of teaching-learning thrives a lot on proximity, the school tried to bridge the gap by bringing in innovative platforms for teaching like **Tata Class Edge** and **Gizmos**. Both of these platforms are replete with technology driven, interactive lesson materials and simulations that keep the students engaged and attentive. It was also very important to keep a track of a learner's progress and provide them with guidance that would specifically help them bridge gaps in their subject matter cognition. Therefore, the school brought in **Focus**, a platform that provides an analysis of the skill impact and skill gap in the learner's academic progress and goes on to suggest adaptive practices to master those skills. With the students slowly settling in with virtual medium of learning academic content, it was time to pay attention to their growth in the co-curricular aspect as well. The school partnered with **USO – United Schools Organization**, that provides an opportunity to the learners to take part in a myriad of inter-school competitions to tickle their competitive spirit. Keeping an eye on the saddening financial impact the pandemic brought about across a large number of families, the school thought it was imperative to make our learners financially smart from a very early age. Hence the school took up the **Money Smart School Program (MSSP)** an initiative of the National Centre for Financial Education that provides unbiased financial education in schools and improves financial literacy among young learners. What the pandemic taught us, quite rudely though, was the importance of having backup plans for future – to be able to plan your future in an informed manner and yet have a safety net if things go south. Thus, the students of the senior secondary school have been getting the chance to interact with international universities and taking accountability for their future through **Unibrij**. This platform helps the students and the counsellors interact with international universities and have a one-on-one interaction with them gaining insight on the courses offered, application process and requirements etc. The amalgamation of these various platforms have helped the school and its students ride the wave of change brought about by the pandemic with confidence.

The background is a vibrant red with a subtle gradient. Scattered throughout are numerous pieces of gold confetti, including long, wavy streamers and small, flat rectangular pieces, creating a festive and celebratory atmosphere.

Iter Decennium

**Celebrating
our Glorious Ddecade-
long Journey**

Celebrating A Decade of Academic Excellence

Decennial Event Celebrations-10th July

10 years ago, the foundation of Vista School was established in June 2011. Multiple thoughts, dreams and concerns were projecting themselves. Passion and patience were the keys to create a temple of education with a blend of technological, cultural, academic and globally engaged activities. The dynamic environment with the aura of the land and the people who joined Vista with dreams to fly gave the necessary boost to make it reach where we are today. The top management always provided the latest technological backup and fine infrastructural amenities to aid the overall growth of children. The accomplishment of 10 years of Excellence certainly demands grand celebrations.

We celebrate the 10 anniversary of Vista School on the 10th of every month since we have completed 10 years with this academic session. The event is live on Facebook and Instagram and all of you are welcome to join. The event is organised systematically by highlighting a unique message, accompanied by a prominent personality as the Chief Guest every month. Please like, share and subscribe to the Facebook page of Vista School and be a part of the buzz.

Decennial Event Celebration-The Launch-10th July Fiesta de la Vista

The Grand launch of the Decennial Event Celebrations commenced with an event cum competition-“Fiesta de la Vista”, A Drawing Competition with the theme “Celebrating a Decade of Academic Excellence”. The students were highly enthusiastic and the participation was tremendous. The Honourable Judge on the occasion was Mr. Lester Anthony Paul. Mr. Paul is a renowned Contemporary Artist in the art industry. Decisions were tough for him because he was fascinated with the artwork done by children. We express gratitude to him for being a part of our Decennial Event Celebrations and making it creatively memorable. His understanding and experience gave us these students as winners from various grades.

Decennial Event Celebration-10th August Mettle Matters

On the 10th July of AY 21-22, Ms Swati Lakra, IPS, joined us as the Guest Speaker. We were enthralled after knowing her thoughts. Despite being in a great position, she was down to earth and brought the students to their comfort zone in no time. She interacted with them as if they were her own children. Students asked a variety of questions that she answered while sharing her adventurous anecdotes. Her one liner explanations reflected her philosophies of high standards. Her presence justified the name of the event-Mettle Matters.

Decennial Event Celebration-10th September Salubrious Solicitations

Salubrious solicitations, with the picture of a Learned Doctor, must be making you curious to know its meaning. 'Salubrious' means healthy and 'solicitation' means asking for a piece of advice. A successful attempt to get tremendously noteworthy suggestions from a proficient medical practitioner was the idea behind the celebrations of The Decennial Event. It was in association with our PTA Committee Members. The third month of celebration was dedicated to 'Health and Increasing Screen Time'. The Honourable Chief Guest was Dr. Snehal Ganatra, an Ophthalmologist (an eye specialist). Inundated with questions by the parents who joined the live session; she was comfortable answering them with poise. She gave multiple pieces of advice to keep the eyes of both children and adults healthy. The highlight of the day was balanced diet, as it can do wonders for eyes and overall health. Using a laptop, system or tab instead of mobile was one of the golden suggestions. Our teachers are also determined to make our students take rest during the online classes.

Incredible India

The 'Earth' without 'art' is 'eh'

Incredible India- Vista's Annual Inter-School Visual and Performing Art Fest. India is incredible indeed and therefore we celebrated it by organising a myriad of competitions named as- 'Incredible India'. The dawn of 14th August 2021 was the day of competition and the inaugural ceremony while pronouncing the winners was on our 74th Independence Day- 15th August 2021. Its emphasis was on the Visual and Performing Arts of India in diverse ways like dancing, singing, theatre, art & craft. The competition had several colours highlighting the solitary theme of our precious independence that we have been delegated as a gift from our ancestors. The assortment of competitions were given exclusive names in Sanskrit and Hindi replicating the significance of Hindi language as our nation is also called Hindustan. The competitions were categorised according to grades as well.

100% transparency was taken care of during the conduct of the competition. The teachers from the participating schools were also allowed to enter during invigilation as teacher in-charge; along with the teachers of Vista School. Each student was asked to place the camera in a manner that their performance was accurately seen, especially during drawing competitions. All the sessions were recorded. The pictures of the students with their works were also taken.

The Art Events

The art events were to extract the aptitude of Art & Craft from the students. The creativity crossed the threshold of our expectations even when they have been under lockdown for almost a year. They not only contributed but also exhibited prodigious fervour while performing.

The Dance Events

The dance events focused on folk dance, classical dance and a dance form of their choice on songs grounded on patriotism. The third dance form was the easiest one. However, we received a reasonable count of entries for folk and classical dance as well. This clearly proves the admiration and reverence to our culture and authenticity of our education system.

Music Events

Music is life for many of us. It is omnipresent; one only needs to feel it. We opened gates for entries in solo singing, playing different instruments and nursery rhymes too. We gave opportunities to primary and pre-primary grades too; while having faith in their talent of expression and we were mesmerised. The students of higher grades captivated the judges and made it a tough task for them to handpick the winners.

Theatre Art Events

The theatre art events were the most exhilarating ones as they were based on solo pantomime and fancy dress competitions. It was highly challenging and creative. It was awesome to watch young minds giving so many beautiful expressions with ease and expertise. The talent in the GEN Z is undoubtedly high quality.

The announcement of the winners was a thrilling session. There was excitement, fun and learning.

Teacher's Day

THE CELEBRATION

5th Sept 1888- Dr. Sarvepalli Radhakrishnan's birthday. Dr. Radhakrishnan, the former president of India and learned personality gave significant contributions to the development of our nation. He worked as a philosopher, scholar and a proud owner of Bharat Ratna (the highest civilian award).

All this is acknowledged easily by all of us but very few of us are aware of the rationale behind celebrating his birthday as Teachers' Day. Once his students desired to celebrate his birthday with full fervour and wanted his acquiescence. Dr. Radhakrishnan asked them to celebrate his birthday as Teachers' Day, as a tribute to the contribution made by them to society. He was thoughtful for the hefts made by all the teachers and heartily wanted them to be appreciated.

The teachers at Vista left no stone unturned in making this event also a happening one. From compering to singing, from dancing to playing Dumb-Charades, et al; we created noise for everything that we had blasts having amusement to our heart's content.

**Please note that all the teachers were vaccinated in the Vaccination Drive conducted by the school or from private hospitals.*

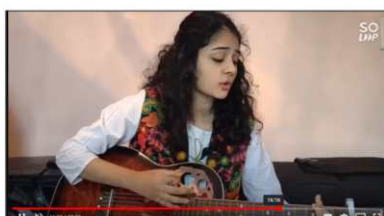

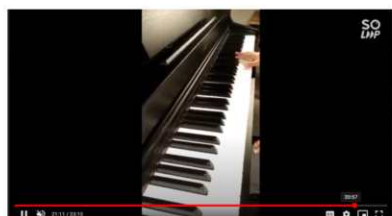

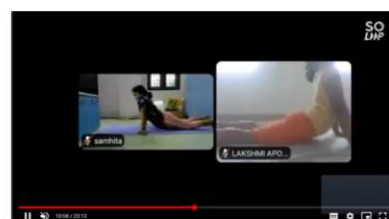

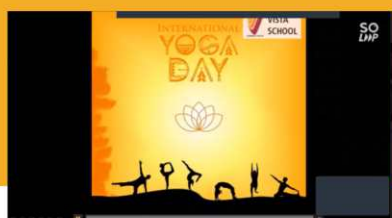

International Yoga & Music Day

21st June

The celebration of International Yoga and Music Day is a mandate because it's a part of education to stay physically fit and mentally calm. Yoga or Yog was originated in India and today there is an international day for it.

International Music Day was started on 1st October 1975 by Lord Yehudi Mehunin and first felicitated by the International Music Council. Music is in our soul. It's everywhere. It's in the flowing water, blowing air and chirping of birds, and every element of nature.

Our students outperformed on this occasion and astounded us with their aptitude both in Musical performances and Yoga movements. Have a glance at the amazing pictures.

Savant's Voyage

Books are our best friends and reading is necessary to be friends with them. The inspiration behind the name is a learned person, especially a distinguished one. Voyage is a journey. Savant's Voyage symbolizes the expedition of a reader that can flinch with books beyond curriculum. The assortment of books has one more abode apart from your study room. It epitomises silence. Yes, it's the library. With due respect given to online education, here we proclaim the grand launch of our Virtual Library. The Honourable Chief Guest on the Eve of the Occasion, 17th July was Mr. Anshuman Ray, A Leading Journalist from the industry. A journalist is better than the best to hold a discourse about books because he composes galore. One has to read in abundance to create his own small piece of writing or express his opinions. Reading increases concentration and thereby aids us in staying humans; since concentration is one of the major differences between mankind and animals. The event was truly enriching. The students asked about various books indiscriminately while chatting in the live event. The astonishment was to the fact that Mr. Anshuman Ray was well aware of every book and he also had absolute perfect suggestions for every genre. The student audience thoroughly relished it.

17th

Investiture Ceremony Student Council Members

Investiture Ceremony is the event to introduce the Student Council Members for the Academic Year 21-22. The first ever virtually elected student council is here. It's a perfect win against all odds created by present circumstances. The moment when the students were taking the pledge, to carry out their responsibilities, the commitment to shoulder their responsibilities was apparent in their demeanour. The children made everyone proud. The Honorable Chief Guest on the occasion was retired Justice B Nagamaruti Sarma. The event came about on 19th June 2021.

Investiture Ceremony of the newly elected Student Council leaders for the year 2021-22 on

Musings of Creativity

Thoughts inspire creation but the very act of creation inspires our thinking too. To engage the mind and body in creative action, to be repeatedly challenged by process and material and to take time to contemplate and innovate can greatly further our ability to consider perceive and grow

Stories

Role of Video Games in Our Lives

Video gaming is a very popular leisure activity among kids, teenagers and even our grandparents. Video gaming is known to have some benefits such as improving focus, multitasking, and working memory, but it may also lead to expenses when these are used heavily.

Video games are addictive because of the whopping limits of imagination. Can teenagers be sent out to fight enemies with guns?

Of course not! But in video games they can be. Can we go out and stay in the wild jungles and fight monsters? No! But in video games it is practicable. Can we create armies, training camps and strategies to win wars for our kingdom? Never! Video games make it viable. These are the dominant causes that make video games so addictive and then one has no limits.

According to some people, Video games are a kind of virus that can ruin kids' brains. On the other hand, they function as a hobby or a career option for some people.

While gaming has its advantages, it also has some disadvantages. Excessive gaming can result in stress, inferior educational and social skills, mental disorders and optical problems. According to some researchers, addiction to games is now a disorder known as Internet Gaming Disorder which is similar to Gambling Disorder.

This is the role of video games in our life.

Adventure in the Jungle!!

Once upon a time, there lived people named Shin-Chan, Himawari, Misty, and Harry. Once, they thought that they should go to a park or a jungle for a walk for fitness. Misty said that they should go for a walk in the jungle and everyone agreed. They got ready with the essentials and went to the jungle. They kept walking and Shin-Chan saw a juice shop and got excited. He said- 'Dad, I want to drink orange juice.' Misty said - 'No dear Shin-Chan! It is not good for your health. I have this good homemade juice which is good for our health.' They kept walking deep into the jungle and it got denser. Everyone got scared and they stopped walking. Everyone was very tired and thirsty. They all drank some juice and Himawari drank milk. All said to Harry to go and check the way by which they would go home. Harry walked and fell downwards. Everyone was scared and they went to check where Harry had fallen. They went into the park and happily they came back home.

HAPPY ENDING!!

Girls' Education

In the 19th century, girls were not allowed to go to school and get education. They were supposed to stay at home and help in the house while boys were allowed to go to school. Boys and girls both need education to build a better future for them.

A woman is always a housewife and was said to be, "A maid-for-all-work". Girls were not allowed to go out of their houses and learn anything.

The only job a girl child did was to clean the house and help her mother. A boy and a girl were never given equal rights; men were allowed to work after they got married whereas women were not allowed to work after getting married. The mind-set of people was very wrong as they used to think, "It's better to have a boy child than a girl child". A girl child was considered a burden and was often not even allowed to see the world. When a girl was born, the parents were unhappy and dissatisfied.

There are still some girls who are not being educated. They are mostly from the financially backward classes as they lacked money. The inequality of gender in classrooms was- Boys tend to be more active by talking more and asking questions. They tend to dominate groups and ignore girls' ideas and requests.

Another reason for girls not being educated is religion. A girl was married at a very young age and was not educated. Child marriage is also a big reason for girls' illiteracy.

As people didn't want a girl child, the number of male children was more than female children. In the world, the males to female ratio have increased from 99.692 in 1950 to 101.704 in 2011. In 2021, there will be 101.68 males per 100 females. It is important to educate every child in this world as they can create their own world.

What Makes A Good Leader ?

A leader is a person who leads a country, organization or commands a group. A good leader possesses a clear vision and has integrity, honesty, humility and clear focus. A good leader should have the ability to solve people's problems anytime. A good leader should help people. For instance, in this pandemic, we can give fruits, vegetables and clothes to poor people. With this help, people will have good thinking about the leader and they can define their leaders with good words. Every person likes to be a good leader but only these few qualities can make a good leader. A leader should make a good place in people's hearts.

Next Future Citizens

All of our lives changed because of this pandemic "COVID 19".

We were all in sorrow and our lives changed, we were suffering like, "Oh, why is this happening!". Most of us just saw the disadvantages in this pandemic. Life turns and gives us trauma to face. Let's learn to take everything as an opportunity. So, let's see what Covid has taught us.

Firstly it taught us that family time is very important, not only that, we had pollution free days because everything was closed.

We understood what empathy was and how we can help others and of course their love towards us.

It also taught us the importance of hygiene and health.

So, we all should not look at the loopholes, but the perks and see what we can do. Without this kind of ideology many people see our issues and come up with solutions. This shouldn't be limited; we all need to be analysing the issues and coming up with solutions.

LET'S BE THE FUTURE CITIZENS

Sarah's adventure-story

Sarah was a little girl who lived with her parents in a huge house. They had a pet dog- Bruno.

It was evening and as Sarah was playing with Bruno, she heard the doorbell. As Sarah opened the door, she gasped out of surprise. She saw a basket with a scroll which was sent by her teacher. The teacher planned to go trekking along with the students.

Sarah excitedly got her backpack ready. Then the school bus arrived to pick her up. After some time, she, along with her friends, reached the trekking spot and saw a wide variety of plants and animals.

As Sarah went further, she got lost and heard some roaring sound which grew wilder. So Sarah decided to trace the sound.

When she finally traced the sound she found out that the sound came from a phone. Her foe played this trick on Sarah. She warned her foe strictly and the foe felt ashamed. For some time both of them did not talk to each other but after a while they started working together to get out of that spot.

Finally, with great difficulty they reached the spot where their teacher and other friends were. Then, it was lunchtime so everyone sat and ate together. That day was enjoyable and the most wonderful adventure that Sarah ever had.

Sports and its distinctive notions

People have divided opinions on the importance of sports in society. Some people consider sports a leisure activity, while others argue that sports play a vital role in society. In my opinion, sports have a significant role to play and its impact on society is largely positive.

Some people consider playing and watching sports as a means of spending leisure with friends and family. They believe that the importance that is attached to sports is highly exaggerated and it should only be treated as a way of having fun among friends. They argue that the amount of attention that is garnered by sports and sportsmen should be diverted to professions like doctor, engineer, lawyer, etc; as they truly prove to be helpful for society. Moreover, they do not consider any activity worthy enough to be taken up as a profession because in their eyes, it is nothing more than a way of passing time.

However, others acknowledge the significant role that sports play in a society. Engaging in outdoor sports help build a sense of competition and work ethic from an early age. Team sports, in particular, help in improving cooperation among teammates which will help an individual in the long run. Furthermore, sports serve to improve the health and fitness of a community, as a whole. For example, proud sporting nations like New Zealand have a healthy and fit population due to the emphasis given to sports in the country. Sports is also a means of uniting the masses in a country and developing patriotism in the population. For instance, during a world tournament, like the Cricket World Cup, people of all ethnicities and races join together to celebrate a win. It is no secret that playing and watching sports is a way to release stress and improve mental well-being. These positive impacts of sports on a society are the testament to the importance of sports in a society.

In conclusion, I would like to stress that sports play a momentous role in a society and its influence on people is widely

evident throughout the world. Therefore, engagement in sports should be encouraged and facilitated by governments and groups all across the globe.

Ms. Anuja Beotra

Teacher, English Department

Balanced Diet!! Balanced Mind!!

What we eat is what we are! A famous proverb that highlights the relationship between the healthy mind and healthy body. We have big houses, branded clothes, expensive gadgets, and many other things outside or around the body; but what about the things getting inside the body! Yes, I am drawing your attention to 'Balanced Diet'.

Balanced Diet has a direct connection with a balanced mind. If your stomach doesn't have any problematic or processed food that it needs to digest, it is in a better condition to concentrate on other activities. The priority of the brain is to take care of the bodily functions. Thus, we shouldn't eat unnatural food items during exams.

Many significant ingredients are missed from our regular diet these days. Thus, students are facing issues like headache, pain in the eyes, poor concentration, etc. especially due to extended screen time. We may not control it later also because gadgets are becoming a crucial part of our lifestyle. However, we can definitely improve our immunity with a balanced diet and a little exercise.

Special attention is to be given to the consumption of seeds of watermelon, sunflower, flax, etc. Most are not expensive and are loaded with rare nutrients. Sunlight from 9-4 is necessary for Vitamin D, the scarcity of which is a root cause of almost

every major disease.

I hope the above mentioned information is sufficient to make you read more on the quantity, timing and frequency of the macro and micronutrients in a balanced diet to attain a balanced mind.

Priyanka Ramchandani
Teacher, English Department

Behind the Victory

It's okay to cheer for the kids who come first. But it's important to make sure to stick around for those who come last. They ran the race too.

It is us, who need to step back from joining the Victory wagon and give them a little word of encouragement, acknowledge the effort, a pat on the back and together join the felicitations of the winners.

This tiny act goes a long way in keeping the young enthusiastic confidence from shattering, giving the solace, "I've given my best, I have my support, my teacher, by my side...."

That moment, you have not only helped your student from falling prey to disillusionment, but your presence and support also nips any feeling of resentment towards the winners. Because, "My hero is with me".

There emerges, from the heroes of failure, a beautiful strong heart who can congratulate the winner without any ill feeling.

And that, my friend, is the foundation of a world-class citizen.

Ms. Sara Faruqui
Coordinator (Grade 1 and 2)

I WIN

They said, you are a fool
to believe things change. To
expect, hold on, hold out.
They whispered, those incessant voices-
Give up- there is no point.
If I am to be a fool,
let me be a dogged fool.
For I refuse! I refuse
to be cowed and daunted.
And there! Right there- I win.

Sonal Goswami
Mid-School Coordinator

Time

It goes and flows,
But never slows,
It's a mystery
For the slow according to History

It sometimes makes you shed tears on
the ground,
And sometimes makes you laugh aloud

It sometimes makes you depressed,
And sometimes impressed

It gives you a reason to live,
And gives you a reason to die

You cry and smile every different time,
It always changes every time

If you accept the change you live with it,
If you reject the change you shrink with it,

Live with it because it changes,
Because nothing stays the same
Because time flows,
And never slows

By **Aayushi Narayan (7D)**

Mother and Teachers Angels in A Child's Life

She is the one, who guides us from the
darkness of night,
Into a path of light,
She is the one who gives us knowledge
and wisdom
And for this purpose alone, she sacrifices
her freedom.

Who else can be these mature and wise
creatures?

Other than our hardworking and
dedicated teachers

Now we have the one who works from
dawn till midnight,

Just to see her child's face joyous and
bright,

Her love for her child is so pure and
strong,

That she never lets him go in any way
wrong.

These people who can take the place of
all others

Are none other than our selfless and
precious mothers?

Both mother and teacher in the life of a
student are like the sources of light,

They teach him wisdom, strength and
help him take flight!

We thank you, O teachers and mothers,
Like you, there is none other!

By **Aditi Mishra (8A)**

Poems

The hot summer day

A hot day on the hottest street,
Everything is burning including my feet.
My friend called me to meet
It was so hot I couldn't even stand on
my feet.

On the hot summer day, I wish it were
cold,
The sun was shiny and very bold.
It was so hot, everything was melting,
including knives.
This hot summer day, I wish never
came to my life,

It was extremely hot, everything was
melting,
For a good windy day everyone was
waiting.
Not only the humans but also the
animals were sweating,
Everything was cancelled including
important meetings.

All because of the hot summer day!

The birds wanted water,
Everyone was thirsty,
The workers did not come,
Everything was dusty.

It was the hot summer day

By Akshara Kathuria, 5E

Ice Cream or Poem!

I wanna write a story
But I don't know whose?
I told someone I'll write,
Whether I win or lose?

Every second is harder,
Every minute and hour
Will this end ever
or will it make a tower?

Can I write about anything?
Like astronauts wearing suits of glass,
Or people walking on the earth,
Or astronauts landing on Mars

I'm really confused
Which one shall I pick?
Or shall I buy an ice cream
To simply lick!

By Aadya Rastogi (4E)

लहरें

उठा लहरें उछल-उछल कर
चल रहा हूं मैं किनारे पर
कभी ना देखा भीतर जाकर
उठा लहरें उछल उछल कर

क्यों ना लहरों से खेला जाए
हर तूफान को जाए
है इंतजार में मेरी एक दुनिया बाहर

उठा लहरें उछल-उछल कर
चल रहा हूं मैं किनारे पर

भीतर ही है मेरे हर प्रश्न का उत्तर
क्यों मैं ढूँढ तुझे बाहर चल
देखूँ तेरी गहराई तुझ में उतर
आकर मिल मुझसे कभी तू भी खुल कर

उठा लहरें उछल-उछल कर
चल रहा हूं मैं किनारे पर

उछल रहा जो अपने पथ पर
लाख मुसीबत आने में
मिल सफलता जग में उसको
हंस-हंस के जीने में

उठा लहरें उछल-उछल कर
चल रहा हूं मैं किनारे पर

Ansal Sahu, 5C

पौधे पौधे नन्हे पौधे

पानी मिट्टी सूरज की किरणों से
बनते हैं यह नन्हे पौधे
पता नहीं किसी को भी चलता
कब हो जाते बड़े यह पौधे
पौधे पौधे नन्हे पौधे

सूरज जब देता अपनी किरणें
तब व बोलता जा उग जा छोटे
जब भी उनको पानी मिलता
राहत की व सांस लेते
पौधे पौधे नन्हे पौधे

जैसे ही होता दिन
लग जाते व काम पर
जैसे ही होती रात
काम से हटके करते आराम
पौधे पौधे नन्हे पौधे

By Akshara Kathuria, 5E

मां यह देखो समुद्र को
जहां मैं खेलती और मजा लेती हूं
इसका पानी बहुत ठंडा है
पर यह हम सब को बुलाता है
आओ खेलो खेलो

कोई नहीं है जो इसको पसंद ना करे
और यह हम सब को यह सिखाती है कि
आगे बढ़ो पीछे ना रुको
और यह भी सिखाती है कि
संकट से ना हारो उसका सामना करो
रात होने पर चंदा भी आकर खेलती है
सूरज चमकने पर समुद्र भी चमकता है।

Darshika G, 5A

हिंदी कविताएँ

मनुष्य को समझ में क्यों नहीं आता

भगवान को दान क्यों देता है, मनुष्य
क्या मानव बनाएगा भगवान का भविष्य
यह साधारण-सी बात
मनुष्य को समझ में क्यों नहीं आता

भगवान तो है सबका दाता
वही है सबका विधाता
यह साधारण-सी बात
मनुष्य को समझ में क्यों नहीं आता

नाम है तो है उसके अनेक
ईसा, अल्ला, ईश्वर सभी है एक
यह साधारण-सी बात
मनुष्य को समझ में क्यों नहीं आता

मत लड़ो, मत बनो कसाई
हिंदू, सिख, ईसाई सभी है, भाई-भाई
क्योंकि सबका है, एक जन्मदाता
मनुष्य को समझ में क्यों नहीं आता

यदि लड़ते हो अपने सगे भाई से
आपसे नाराज होता है आपका पिता
धर्म भाई से लड़ने पर नाराज होता
विधाता
मनुष्य को समझ में क्यों नहीं आता

Team Vista की कहानी, पूनम मैम की जुबानी

हमारी Principal Ma'am बड़ी
energetic
Teacher engagement कला खूब इन्हें
है आती
एक मीटिंग में महीने भर का काम हमें दे
जाती
व्यस्त रहो मस्त रहो, Team Vista ने
सिखाया

सारा मैम, सुभाषिनी मैम सोनल मैम
शांति प्रिया मैम
की उड़ी पतंगे आसमान की ओर
टीचर भी कुछ ऊपर उठे,
जो पकड़े मेहनत की डोर,

सारा संभाले छोटे बच्चे,
सुभाषिनी 3 और 4
सुभाषिनी ने कला दिखाई,
COOD की भूमिका निभाई

रूपा से ज्यादा नहीं मिली,
इसलिए ज्यादा नहीं लिखी
रूपा 7 और 8 संभाले,
Sirisha, Vice Principal है, सबको तारे

सोनल है सबसे जुदा,
सारे टीचर इन पर फिदा,
पौलमी और माधवी का, अलग है नाम,
इनके बिना, ना होता इवेंट्स का काम ।

मिलते हैं हम हिंदी जीव से,
एक श्रीमान संजीव से।
अब है हिंदी टीचर की बारी,
हिना जिसकी खुशबू है न्यारी।

अजीत की हिंदी में जीत,
प्रीति की हिंदी से प्रीति।
ममतेश की ममता,
और पूनम की नमता ।

गरिमा की महता,
और हमारी P. P. Haritha.
बच्चों की टीम की,
उज्ज्वल भविष्य की कामना ।

Teacher, Hindi Department

सफ़र करोना का

आइए बयां करते हैं सफ़र करोना का,
चाइना से शुरू होकर हर देश को शिकार
बनाया ।
जब से आया है जिंदगी में करोना,
पड़ गया है हर काम के पीछे रोना ।
रुक गई है जिंदगी वहीं, हो गया है
वीरान..

हर जगह है करोना की मार
करोना ने ना छोड़ा किसी परिवार को

मत छोड़ो किसी भी परिवार के दुःख को
जिनके बिछड़ गए नहीं अंदाजा उनकी
दर्दनाक भावनाओं का ।

करोना की वजह से हर पल लगता है ,डर
जीने से
ना जाने कौन सा पल किसी को तन्हा
छोड़ जाए
बनकर रह गए हैं पिंजरे के पंछी बस,
बाहर निकलते हुए हैं डरना।
ए करोना कब तक पड़ेगा तझसे डरना।

मैंने भी करोना के प्रभाव को बड़े पास से
है देखा।
करोना के इस दौर में जिंदगी का सफ़र है
अनोखा,
कुछ खट्टे- मीठे अनुभवों का हुआ है
सामना
कुछ अपने बिछड़े परिवारों के करीब
आए और कुछ बिछड़ गए अपने ही
करीबियों से।

अभी भी अत नहीं हुआ इसका
न जाने और कितना सामना करना पड़ेगा
इसका ।
हम भारतीय हैं, हरा देते हैं हर जंग को
यह तो सिर्फ एक बीमारी है।
सभी को मिलकर करोना की लड़ाई को
हराना है भारत को जिताना है।
By Ms. Mamtesh Kumari
Teacher, Hindi Department

मेरा भारत महान

मेरा प्यारा भारत महान,
सारे देशवासियों की शान।
कहा जाता यह हिंद या इंडिया,
बना यह दुनिया के माथे की बिंदिया।
यहां की संस्कृति हमें सिखलाती,
मिल-जुलकर रहना बतलाती।
अनेकता में एकता नारा है जिसका,
ऐसा अनोखा भारत है सबका।
धरती से सोना उपजाता कृषि-प्रधान,
अपने देश का गौरव कीर्तिमान,
मेरा प्यारा भारत महान।

Expressing Gratitude

The editorial team is grateful to you for being a part of the first edition of E-Magazine by Vista Family. We hope you found it informative and creative.

We express our gratitude to the Directors for being in the Top Management of the noble education industry and standing for us as strong and quiet pillars.

We appreciate the teachers, incharges, coordinators and heads of the department for letting us know their secret teaching strategies and making the learning contagious.

We extend our thanks to the students who contributed passionately by giving their breathtaking artworks, articles, poems, puzzles galore from their treasure they have created. We are enthused to see their inclination towards creating writing and artwork beyond gadgets.

A special thanks to the team behind the making of **"The Phrontistery Chronicles"**.
